

Anthony Hurren Present:

# T I D A L T I M E S

Second Floor Studios & Arts member' Anthony Hurren has been undertaking a photographic study of the River Thames along the Greenwich and Charlton riverside for the past few years as the river rises and falls with daily tides. Hurren's series of photographic works entitled 'Tidal Times' capture artefacts, debris, man-made objects and machinery as they reveal themselves in the mud and stones like water marks on an old bath generation after generation.
